

Drafting Feedback Emails

Sally A.M. Hogenboom

2023-04-26

Setup

```
library(yOURemail)
library(tidyverse)
library(magrittr)

# Authenticate & get Outlook Environment
outlook <- Microsoft365R::get_business_outlook()
```

Goal

Draft a standardized email which details how to deal with feedback, where to submit the final assignment, and includes the feedback document as attachment.

Requirements

- Access to the files

Execution

```
yOURemail::draft_feedback_email(
  outlook,
  submission_overview = here::here("Nakijk0verzicht.xlsx"),
  grading_folder = here::here("Ingeleverde Opdrachten"),
  teacher_name = "Sally",
  student_id = 852258921
)
```

Expected Behavior

1. Create a draft-email with:
 1. To: student_email

2. General ‘how to process the feedback’ statement
3. Feedback document as attachment.

Development To Do’s

- *None*
